GRAPHIC SEX PROJECT

1) Write down the different parts of a sexual experience and assign each one a color. This is your legend.
2) Build your graph like a story. What happens first? What happens next? Use the colors you identified.
3) Use more of a color to mean more time spent on that activity.
4) Use dots to mark climaxes if you want.

Write your age and how you identify. Like a 22 yr old bisexual woman might put --- 20WB

This space will be cut off in the final print out version if you choose to include it in the collection

age&identity:

how long? : hr min

This space will be cut off in the final print out version

Amount of time this graph represents

Take a picture in the lightbox and share it with a partner. Talk about it!
Your partner can make their own graph at GraphicSexProject.com
Use the QR code to submit your graph to the project, if you want.
